2018

ADVANCED MEDICAL ACUPUNCTURE PROFESSIONAL AND PERSONAL DEVELOPMENT PROGRAM

Edmonton, Alberta, Canada · 2018

Schedule*

OCTOBER 5-7, 2018

Dr. Aung's Club 21st Annual Retreat

Location: Goldeye Conference Centre, Nordegg, Alberta

Theme: TBA

Dear Colleagues;

This year, we have decided to go back to more clinical acupuncture with patient presentations. Dr. Aung will provide a short lecture, followed by alumni presenting patients with difficult cases. Dr. Aung will provide a diagnosis and treatment plan. We will need to coordinate the case presentations, so we will let you know who will lead the coordination.

We will continue to webcast the lectures for our out of town members. It is great to see that there are usually ten or so people from afar that are following the webcasts. Please note, that we will not record the patient presentations as it is not appropriate to have very personal patient information on servers.

We are so fortunate to have Dr. Aung lecture for us. I think that the alumni who have been attending would agree with me that Dr. Aung has refined his philosophy and advanced treatment methods since you completed the Medical Acupuncture Program. Please join us for these valuable lectures.

I hope to see you soon!

Paul Leung, President,
Dr. Aung's Club
