## Certificate Program in Medical Acupuncture Alumni Club

### Vision

The vision of the *Dr. Aung's Club* is to promote a high standard of traditional Chinese medicine and integrate TCM into modern health care. The club is a method of continuing TCM education for the members. The meetings also provide a setting in which you can meet many peers in the medical field who practice acupuncture.

### Overview

Dr Steven Aung has taught the Certificate Program in Medical Acupuncture (CPMA) at the University of Alberta since 1990. In 1996, a group of students formed an alumni club in honour of Dr Aung. Our purpose is fourfold:

1. Maintaining contact with Dr Aung
2. Continuing TCM education
3. Providing peer support for Dr Aung's students
4. Promoting research in acupuncture

We have achieved the first three goals.

Only Dr Aung's students from the CPMA can join as members. The membership fee is kept low to encourage membership. You have to be a member to register for our activities. We have developed a website and are planning to produce two newsletters per year and contributions from members are appreciated.

*In natural healing, understanding how to use vital energy efficiently and effectively is very important. Purification and compassion are absolutely essential in the arts of healing. This applies equally to both practitioners and our dear patients. We must always remember that patients are our best teachers—and the most difficult patients are the greatest challenges.*

*Steven KH Aung*

### Dr. Aung's Club EXECUTIVE

Paul Leung, President, 1996-1999, 2001-2008  
Hari Chana, Past-President, 2000-2008
